

# HerHealing pilot achievements and goals

Research findings by HerSpace® Limited 2016.

## Will you join us?

Our vision is to reach **200** women by **2020** through HerHealing and all of our HerSpace programs. We want to see 200 women free to choose their own direction, out of sexual exploitation.

HerHealing has so far provided

# 2000

**sessions of counseling**  
with specialized therapist

EACH WOMAN RECEIVES

**20 sessions of**  
**1 on 1 support**

HerHealing is founded on strong partnership with community organisations in Melbourne with effective referral pathways into our program

HerSpace is the *only* specific mental health service for women affected by sexual exploitation

in Melbourne and even Australia. We are at capacity, and have needed to start a waiting list.

We don't want to turn women away, and there are no other similar services to refer them to.

### Healing from the impacts of sexual exploitation

is a journey and not a short-term fix. HerHealing offers long-term, tailored support for each woman.

We want to expand our already existing HerHealing program with more funds, and that's why we need your support today. Help us make 200 women by 2020 a reality and lets not keep women waiting for the support they so urgently need

**10 women** have 1 year's worth of mental health support
